The Competent Authority

Subject: "Study Tour on Smart and sustainable cities (Stockholm, Cologne and Barcelona)"

Dear Sir/Madam,

Engineers Development Council (EDC), registered under the Societies Registration Act XXI of 1860, No S-54901 of 2006 serves as autonomous body and representative of the various segments of Indian Industry with the mandate to provide impetus to collective interest in organized infrastructural development of the nation.

It gives me a great pleasure to inform you that after the many training programs conducted by Engineers Development Council for construction professionals, which are generally technical in nature. We are now planning to conduct a specialized program on "Smart and sustainable cities (Stockholm, Cologne and Barcelona)" this program has been specially designed for the executives & decision makers, serving local, State & Central Govt. and the corporate sector. As you are aware that India is fast becoming a focal point for the world as a business & sports destination and there is a need for providing international level facilities not only in class-I cities but also other cities which have great potential to develop into international business centers.

The development of Smart cities would provide better job opportunities for the working class, better living conditions for the family, better recreational and amusement facilities. In short a better life style for its citizen. With a view to provide ideas, concepts and exposure to the decision makers, EDC is planning to organized Study Tour on "South East Asian models of Infrastructure facilities for Indian Cities" in the proposed cities as their infrastructure is considered as one among the best in the world. Date 16th -25th September, 2018 (09 days) Course Fee Rs. 4,58,000.00 (Four lakh Fifty Eight thousand rupees) +GST 18 % per Participant (Detail Enclosed).

A brief note about the program is enclosed for your kind reference. We shall request you to convey to us your willingness to participate in this program, and also the nomination of the other officers from your organization, who like to participate and get benefit.

Thanking You,

For Engineers Development Council

(Director General)

“Study Tour on Smart and sustainable cities (Stockholm, Cologne and Barcelona)”

Date:- 16th September , 2018 to 25th September , 2018

Day 1 – Meet up at airport and take flight from India to Sweden.

Day 2 – Land to Sweden And take rest

Day 3 - Visit to Municipal council (Sweden).

Day 3 – In night we leave Sweden and move to Stockholm.

Day – 4 Visit to Swedish International Development Cooperation Agency (Stockholm)

Day – 5 In night we leave Stockholm and move to Germany

Day- 5 Reached Germany and then we Visit to Hohenzollernbrücke Bridge.

Day – 6 Visit Germany Trade and Invest GmbH

Day – 6 In night we leave Germany and move to Spain.

Day – 7 Reached Spain and Visit to Barcelona innovation district.

Day - 8 Visit to Ajuntament de Badalona. Badalona city council.

Day - 8 In night we leave Spain and move to India.

Day – 9 Reached India.

Study Tour on Smart and sustainable cities (Stockholm, Cologne and Barcelona)

The Indian government has undertaken concrete steps for making smart cities a reality with the recent announcement of 98 aspirants. These smart cities will compete with each other to come up with holistic plans for becoming model cities. The government has incorporated sustainability as one of the key components of smart cities. With the increasing frequency of natural disasters, abnormal weather patterns and the looming threat of global warming, the concept of a smart city must be merged with sustainability for the welfare of people and our planet as a whole. The marriage of innovation with technology will go a long way in optimising the management of infrastructure and resources and, at the same time, focussing on inclusiveness and a greener environment. Smart sustainable cities will lay the foundations for a better future—a future where cities care for people, the earth, air, water and the environment.

Cities are indispensable to nations—they are hubs of economic growth and innovation and are cultural melting pots. They usually have unique characteristics and a cultural identity, as well as present a multitude of options for business, employment, leisure, entertainment, healthcare and education. Given these attributes, cities attract people from rural regions seeking opportunities for employment, education and a better lifestyle. Hence, cities have been witnessing the megatrends of population explosion, a growing middle-class population and urbanisation. By the year 2050, approximately 70% of the global population is projected to live in cities. India, too, is experiencing these trends, with an exponential growth in urban population owing to the promise of more employment and entrepreneurial opportunities and good quality of life.

Apart from advantages, urbanisation also brings with it certain challenges. Many Indian cities are plagued with various environmental, social and economic issues such as resource scarcity, congestion, pollution, poverty, lack of affordable housing, proliferation of informal dwelling, as well as sewerage and sanitation problems.

In fact, urbanisation is placing an environmental load on natural resources as cities account for 60–80% of energy consumption across the globe and for more than 70% of worldwide carbon dioxide emissions. In order to provide better living conditions for existing and future generations, cities need to be improved by adopting the smart route and at the same time focussing on the sustainability aspect.

Sustainable cities (SC) can be understood as resilient cities that can more readily adapt to, mitigate, and promote economic, social, and environmental change. Sustainable development encompasses all aspects of a city's healthy development and should be done with a triple bottomline in mind - addressing economic/financial, social, and environmental issues.

Study tour focusses on the followings

Institutional infrastructure

- E-governance and citizen services

Physical infrastructure

- Smart energy management
- Smart water management
- Smart waste management
- Urban mobility
- Smart communications
- Smart environment
- Smart spaces
- Smart surveillance

Social infrastructure

- Smart healthcare
- Smart education
- Recreation: arts, sports, entertainment

Economic infrastructure

- Incubators, skill development centres, specialised business parks, hubs, etc.

Economic progress

- Competitive economy
- Employment growth and opportunity
- Affordable housing
- Governance

Environmental stewardship

- Climate change mitigation and adaptation

- Water, waste and energy management
- Green buildings
- Sustainable transport
- Water quality and air quality
- Natural resource management, including biodiversity and green cover

Social development

- Social inclusion, stakeholder engagement and participation
- Human rights
- Sanitation, public health and safety

Study tour participants included: Bureaucrats, Engineers, Executives, Finance officers, Decision makers, Urban planners, architects and landscape architects, representatives of cultural organizations, and elected officials. These professionals will visit a range of projects and gain insight through meetings with city officials, on-site visits to ongoing projects, and meetings with community leaders. Tour focus on cities in transition and the rehabilitation of run-down neighborhoods in Stockholm, Cologne and Barcelona.

The site visits are planned to give firsthand experience of the facilities providing services to the cities. These would include:

1. Visit to Municipal council (Sweden)
2. Visit to Swedish International Development Cooperation Agency (Stockholm)
3. Visit to Hohenzollernbrücke Bridge
4. Visit Germany Trade and Invest GmbH
5. Visit to Barcelona innovation district
6. Visit to Ajuntament de Badalona. Badalona city council.
